

Meeting Minutes

Date: March 31th,2020

Time: 10:30 – 11:00

Location: Online via Microsoft Teams

Week 7

Topic 1: Showcasing the work we've done so far in the application

Topic 2: Questions about the calibration session

The calibration session will be done by our mentor although it's not certain whether someone else will join him. He will check if we are on track with everything or if we need to add other features. The main focus of this session is to receive feedback.
