Week 5

## **Topic 1: Discussing URS**

- Removing features/use cases that don't make sense
- We can change them. But we need to specify in the first iteration plan the features we are going to implement. In the second iteration plan we need to specify what went wrong.

## **Topic 2: Work Division Report**

- Add percentage

## **Topic 3: Discussing the demo application**

- Search for programming design patterns
