Meeting Minutes

Date: May 6th, 2020   **Time:** 10:30 – 11:00   **Location:** Online via Microsoft Teams

---

Topic 1 : Quick Overview Of Sequence Diagrams

- Change "User" to "Actor"
- For the "Add Intersections with Zebra Crossings" sequence diagram, „display message" should go back to the GUI, not to the User
- For "Start/Stop simulation" we don't need to go into technical details, specify the Actor that presses on a certain button
- For "Start simulation", instead of foreach write loop (specify what you are iterating through)

- Prepare the plan for iteration 3
- Don't forget to specify in the process report why we decided to remove bridges, etc
- Finish the Generate Report feature
